5 – 8 bar

30 – 90 kg/h

The new SWC 150 Capper is the perfect solution for a flexible and safe production capping machine. Using the Silgan engineering expertise and with the latest technology.

The key characteristics are already fixed:

- it offers an alternative option to the standard cappers regarding performance, shape and functionality
- speed: 100 to 150 jars per minute
- suitable for all Twist-Off® diameters 27 mm to 110 mm sealing food glass jars
- latest hygiene standard, overall stainless steel
- CE compliant
